The Data Pro Code is an approved and legally effective GDPR Code of Conduct pursuant Article 40 GDPR.

The Data Pro Code is an initiative brought forward by NLdigital, the trade association of ICT suppliers.

The data processors listed in the [Data Pro Register](#) have fulfilled their obligations under the Data Pro Code and thus underline their efforts regarding accountability, while showcasing their commitment to transparency and trust.

Adherent companies have completed a compliance assessment carried out by an independent and accredited Monitoring Body, i.e., SCOPE Europe.

<https://datapro.scope-europe.eu>

SCOPE Europe is the European front-runner in the ecosystem of accredited GDPR Monitoring Bodies, specialized in delivering solutions to help companies overcome regulatory challenges in the EU.

It is the first-ever accredited Monitoring Body for a transnational Code of Conduct as well as the first to be accredited for multiple Codes of Conduct and by more than one Supervisory Authority.
